VOLKSWAGEN GROUP

Countermotions and election proposals from shareholders

Below you will find all shareholder motions* to be made accessible in accordance with Sections 126 and 127 of the Aktiengesetz (German Stock Corporation Act) (countermotions and election proposals and their justifications as well as further statements sent in this context) regarding the items on the agenda of the Annual General Meeting of Volkswagen Aktiengesellschaft on June 18, 2026. Any statements by the management will also be published here.

**To avoid a misunderstanding due to translation issues, motions received only in the German language will not be translated. Motions received in a language other than German must be accompanied by a German translation.*

Dear shareholders,

A countermotion or election proposal received by the end of June 3, 2026, 24:00 hours (CEST), which is to be made accessible in accordance with Sections 126, 127 of the Aktiengesetz, is deemed to have been submitted at the time of publication in accordance with Section 126 (4) of the Aktiengesetz if the shareholder submitting the motion or election proposal is duly authorized and registered for the Annual General Meeting.

Furthermore, countermotions and proposals for election as well as other motions can also be submitted during the virtual Annual General Meeting by means of video communication using the shareholder portal.

Shareholder motions relating to rejection of management’s or the Supervisory Board’s proposals can be supported by voting “No” for the relevant agenda item via the shareholder portal (published as of May 28, 2026) at **www.volkswagen-group.com/agm-portal**. These shareholder motions are published online at **www.volkswagen-group.com/agm**.

Shareholder motions and proposals for election not relating to rejection of the Management’s or the Supervisory Board’s proposals are each identified with a capital letter. Shareholders or their proxy holders can vote on these motions and proposals for election by checking “Yes”, “No” or “Abstention” after the relevant capital letter in the box in the shareholder portal at **www.volkswagen-group.com/agm-portal**.

The meeting chairperson’s right to have the Management’s nominations voted on first in the voting remains unaffected. If the Management’s nominations are accepted with the necessary majority, countermotions or (differing) nominations become superfluous in this respect.

Where there are obvious contradictions in votes by shareholders or their proxy holders on the management’s proposals on the one hand and the vote on countermotions on the other, the votes will be considered invalid.

PROF.CHRISTIAN STRENGER

May13,2026

Dear Sir or Madam,

In my capacity as an ordinary shareholder entered in the Volkswagen share register, I hereby submit the following countermotions according to § 126 of the German Company Law regarding the items 3 to 5 and 7 of the agenda of the Annual General Meeting of June 18,2026:

Agenda Item 3: Resolution on the discharge of the members of the Board of Management for the fiscal year 2025:

It is proposed that the members of the Board of Management are not granted the discharge.

Reasons:: In 2025 the Board of Management again failed to take appropriate measures to ensure the still outstanding full investigation into the responsibilities of current and former members of the Board of Management and the Supervisory Board in connection with the Dieselgate scandal that was admitted by VW only in 2015 and has already cost VW shareholders EUR 34 billion to date.

Agenda Item 4: Resolution on the discharge of the members of the Supervisory Board for fiscal year 2025:

It is proposed that the members of the Supervisory Board are not granted the discharge.

Reasons: In 2025, the Supervisory Board again failed in its duty to investigate by appropriate measures the responsibilities of current and former members of the Supervisory Board and the Board of Management in connection with the Dieselgate scandal that VW did not admit until September 20, 2015. This continues to concern, in particular, the Chairman of the Supervisory Board, Mr.Pötsch, who was Inter alia , in his then capacity as the responsible Chief Financial Officer cognicant of the "Schadenstisch" (an internal damage-assessment meeting) held by Mr Winterkorn at the end of July 2015 of the imminent and unavoidable disclosure of the Dieselgate Skandal by the U.S. authorities and did not file an ‚ad hoc' disclosure before their disclosure on September 18, 2015.

Further reasons against granting discharge include:

- the continuing refusal of the VW boards to carry out a ‚special audit' of the responsibilities of members of the Supervisory Board and the Board of Management that has long been requested by DSW in 2017 and was subsequently ordered by the relevant court;
- the dismissal by the Federal Court of Justice on 30 September 2025 of the inadequate liability settlements with Messrs Winterkorn and Stadler that were proposed by the VW's boards for the 2021 Annual General Meeting .

Agenda Item 5: Election of members of the Supervisory Board:

It is proposed that the election of Mr Hans Dieter Pötsch be rejected.

Reasons: Since his appointment as Chairman of the Supervisory Board in October 2015, then supported by the major shareholders and contrary to the German Corporate Governance Code for a compensation of EUR 17.5 million, Mr Pötsch has (apparently also due to his previous involvement in the Dieselgate affair) so far been unable to fulfil his duty to achieve a full investigation into all relevant facts of the scandal. The fact that he is now proposed to be re-elected despite exceeding VW‘s statutory age limit for supervisory board members highlights the intent of the major shareholders (that are also prominently represented on the Supervisory Board) to postpone for as long as possible a transparent clarification of the facts and the accountabikity of the persons chiefly responsible for the scandal.

Agenda Item 7 B: Resolution on the confirmation of the settlement proposed by VW‘s 2021 Annual General Meeting with Mr Winterkorn regarding his release from liability under civil law:

It is proposed that the proposal of the Company’s boards be rejected.

Reasons: In the judgment referred to above, the Federal Court of Justice held Mr Winterkorn’s release from liability under civil law to be unlawful as the financial circumstances presented by the Company’s boards in 2021 for an appropriate settlement had been inadequately established. The amount accepted from Mr Winterkorn as consideration for the release also included a “waiver” of approximately EUR 4 million of earlier bonus claims Even after the disclosure of Dieselgate. Due to his conviction in criminal proceedings in December 2025, the then equally proposed release of Mr. Stadler from private liability against his waiver of a previous bonus for EUR 4 million is no longer pursued.

Prof. Christian Strenger.
